WORK EXPERIENCE

Bellamy Group – Frontend Developer – Fulltime

January 2024 – Present   Glastonbury, CT

- Completely redesigned and redeveloped the Honest Elite social media app using Next.js, TypeScript, and Tailwind CSS, modernizing the tech stack and improving performance.
- Built new modules (models, councilors, newsfeed) for the app, ensuring visual fidelity and functionality. Maintained code quality with TypeScript and optimized data fetching. Implemented real-time audio calling and integrated livestreaming features using Socket.IO and third-party libraries.
- Wrote end-to-end tests with Playwright to ensure an error-free and user-friendly experience across the application.

KLWebco – Frontend Developer – Fulltime - Job Experience Certificate

March 2022 – December 2023   Huntington Station, NY

- Built and optimized multiple applications for clients using Next.js 14. Ensured type safety with TypeScript and implemented accessible designs with Tailwind CSS.
- Collaborated with UI/UX designers to implement designs to functional components for the Sass product Manifestare. Contributed to core features like event manager and donor manager functionalities.
- Created a streamlined onboarding process with react-hook-form and Context API. Integrated Stripe Connected Account for seamless payment access. Mentored and trained interns in frontend development, recognized for exceptional contributions.

Brainzet Technologies – Frontend Developer - Internship

December 2021 – February 2022   Chittagong, Dhaka

- Developed an e-commerce site using Next.js and Material UI, integrating backend development with Express.js and MongoDB.
- Overcame a learning curve to deliver the project within two months, applying acquired knowledge effectively.
- Collaborated with interns on GitHub, gaining valuable teamwork experience and contributing to real-world project completion.

Education

BSc. in Mathematics (2019 –present) – *Siddeshwari College (NU), Maghbazar*
